Subject: RE: GKM-distribution of phone number?

Gina - there is some problem with me sending the distribution list (I get an error that not all are getting it) so I have had to have Chris send it. He just left. I will try to get this addressed in the morning. Have you let anyone in the JIC know too?

Subject: GKM-distribution of phone number?

Hey all, please see note below. Maybe you've already done this but if not, could/should we do a global mailer to get the word out about the phone numbers??

Subject: chamber of commerce

Hey Gina – can you send a message out to your stakeholders – counties, etc and include chambers of commerce that they can give out the EPA hotline number which is 844-607-9700 which goes to the JIC line so that local number is 970-812-3351.

The Chamber of Commerce gave my number to a citizen so we need to get them referring people to those numbers.

Not sure if you're the one to do that – apologies if not!

Lisa
